

Mohamed Bchir

Full-Stack Developer

+212 649-174926 • mohamedbchir70@gmail.com • Morocco, Casablanca-Settat

Summary

I am a passionate Full Stack Developer dedicated to creating innovative solutions that address real-world problems. Through rigorous training and self-learning in web development, I have mastered programming languages and frameworks such as React.js, JavaScript, HTML, CSS, Tailwind, Bootstrap, and Laravel.

Additionally, I have extensive experience with MongoDB and MySQL for database design and management. My expertise encompasses the full spectrum of website creation, from frontend design to backend development, enabling me to deliver comprehensive and robust web applications.

Experience

STAGE PFE - DEVELOPER WITH SOUS DIRECTION RÉGIONALE DE LA COUR D'APPEL DE SETTAT

Morocco, Casablanca-Settat

Full Stack Developer

- Created class diagrams (CD) and data model diagrams (DMD) for the project.
- Conducted meetings with the supervisor to discuss class diagrams (CD) and data model diagrams (DMD).
- Designed the Manage Phones web application using Figma.
- Engaged in MySQL learning tutorials with Laravel, including MySQL installation and development environment configuration with Laravel.
- Developed the database with the necessary tables and their relationships.
- Developed the backend of the Manage Phones web application using PHP with Laravel.
- Developed the front-end of the Manage Phones web application using React.
- Utilized RESTful APIs and Axios for efficient data communication between the front-end and back-end.
- Tested the Manage Phones web application.

Strengths

Team Player

Proven ability to work and collaborate effectively with cross-functional and diverse teams in a fast-paced environment.

Problem Solving

Strong ability to debug code, troubleshoot issues, and implement robust solutions to coding problems.

Attention to detail

Ensured code quality and accuracy through rigorous testing and review processes.
